RPX Forward Contracts Outperform Major Market Indices

RPX forward contracts have outperformed major market indices in both three-month and six-month returns. According to daily RPX Forward Price Fixings, forward contracts on the RPX Composite that expire in December 2009 have increased 16.27% during the three month period of July 1st to September 30th, while the Dow Jones Industrial Average Index and Standard & Poor's 500 Index have increased by 14.21% and 14.49% respectively. During the past six months, beginning April 1st and ending September 30th, the 2009 RPX Composite contracts have increased 32.19% while the Dow Jones Industrial Average Index and Standard and Poor's 500 Index increased by 25.13% and 30.33% respectively.

About Radar Logic

Radar Logic Incorporated, a real estate data and analytics company, calculates and publishes the Radar Logic Daily™ Prices. The prices track housing values for major U.S. metropolitan areas and are the basis of the Residential Property Index™ (RPX™), a market that enables real estate to be traded as a liquid asset, via property derivatives marketed by major financial institutions. RPX allows real estate and financial professionals to manage opportunity and risk, invest in real estate values without owning physical assets and effectively analyze markets using a consistent metric: price per square foot.
